Product Designer · Authorized to work in EU & UK

Miro · Product Designer — Jul 24 - Present

- **Product Ownership & 0-1 Design:** Spearheaded 0-1 end-to-end design for *Miro Insights* (an AI customer feedback loop aggregator), shipping features like 'Ask AI', 'Canvas Insights' and 'Automations'. Scaling product revenue from $0 to $250k ARR.
- **User Onboarding & Growth:** Redesigned onboarding & invitation flows for 100M+ users, cutting time-to-value and boosting activation across Miro's AI canvas strategy.
- **Monetization & Retention:** Designed interactive user loops and optimized cancellation logic to decrease customer churn and significantly reduce support ticket volume.
- **Cross-Functional Design:** Led design alignment across Product and Engineering to deliver complex features within strict technical constraints across multiple feature teams.

Cashbook · Product Designer — Jan 24 - July 24

- **IA & Workflow Optimization:** Overhauled core navigation and information architecture (IA), reducing cognitive load and accelerating daily financial workflows.
- **Data Visualization & Analytics:** Designed real-time financial KPI dashboards, simplifying complex data workflows and improving metric clarity for SMB merchants.

SAP · Product Design Intern — May 22 - Jan 23

- **Design System & Scalability:** Architected a multi-theme Figma design system with 150+ components and 7+ automated themes, speeding up design-to-code handover.
- **Design Integration:** Aligned SAP Fiori Tools UI for VS Code with Microsoft's native design language, accelerating onboarding for developer users.

Bachelor of Science in Interaction Design · The University of Limerick — 2020 - 2024
